AGE* DIVISIONS

TOTS DIVISION average age: 4-5

MINI DIVISION average age: 6-7

JUNIOR DIVISION average age: 8-10

PRE-TEEN DIVISION average age: 11-12

TEEN DIVISION average age: 13-15

SENIOR DIVISION average age: 16-19

ADULT DIVISION average age: 20 and up

***Ages should be calculated and current for the date of the event**

- To find the average age for your entry, add all the participants' ages together and divide by the number of dancers in the entry. Instead of rounding up or down to the nearest whole number, drop the decimal. For example: if a routine averages to an age of 10.7, you would drop the decimal and the routine would compete in the 8-10 petite division.
- The average age of each entry must not drop more than one age division below the age of the oldest dancer in the entry. Example: an entry contains dancers ranging in age from 8-16, the entry may not compete younger than the 13-15 age category, one division younger than the oldest dancer. In a production number it is the true average age. For example, if the average is 12.7 and the oldest dancer is 18 you will compete in the Junior Division. This is only for productions.
- Any child two (2) years younger or more than the average age who is included in a routine must perform a meaningful and significant amount of the choreography, as determined by our adjudicating faculty.
- Names and ages of all dancers must appear on the entry form, or it will not be accepted. All competing dancers must be able to present proof of age at the event if requested by guiDANCE team.
- The Adult Division may perform for adjudication but will not be included in the Overall Awards.

LEVEL DIVISIONS

- Dancers can compete at two performance levels, to be placed at the discretion of the studio director. They are as follows:
 - APPRENTICE DIVISION:** For beginner dancers who typically dance less than five (5) hours per week and have been dancing two (2) years or less.
 - PRE-PROFESSIONAL DIVISION:** For intermediate and advanced dancers, typically training more than five (5) hours per week and have been dancing three (3) years or more.
- If there is a duo/trio that has mixed performance levels, the entry must compete in the Pre-Pro division. For group entries, no more than half or three (3) Pre-Pro dancers (whichever is greater) can be placed in a group in the apprentice division.
- Adjudicators reserve the right to move an entry from the Apprentice division to the Pre-Pro division as they see appropriate. In the event this happens, guiDANCE staff will notify the studio owner or representative before the awards session.

PROPS

- No more than 3 minutes is suggested for set up and removal of props. If more time is needed, please email when you register. Set up and removal beyond that may be penalized in the overall score.
- No dangerous props can be used on stage (i.e. swords, knives, fire)
- No live animals
- No props can be used that may cause damage to the stage or marley.

- No helium balloons released on stage or anywhere in the venue.
- Please indicate on the registration form if there is a prop for each entry.
- Please load oversized props backstage at the start of the day and remove them in a timely and courteous manner.
- guiDANCE is not responsible for the care and storage of props

SCORING RUBRIC: Each entry is evaluated by our panel of adjudicators using the following rubric.

- **Technique (0-40 Points)** Form, clarity, strength, flexibility, demonstration and execution of level-appropriate movement and concepts. Evaluation of appropriateness includes the safety and suitability of choreography for the performer(s).
- **Musicality & Choreography (0-20 Points)** Firstly, we consider the choreographic choices, how suited they are to the technical abilities of the dancer(s), originality in movement, concept and staging, and the integration of these elements to convey story, character, emotion, etc. Secondly, we evaluate the execution based on perceived accuracy, musicality and timing, overall flow & cleanliness.
- **Performance Quality (0-20 Points)** Though we cannot evaluate artistry the same way we evaluate athleticism, we can consider the impact and perceived authenticity of a performance. Factors include expressions, smooth integration of props and set pieces if applicable, overall movement quality and ability to convincingly portray the message that the choreographer seems to have set out to achieve.
- **Overall Impact (0-20 Points)** We consider the cumulative effect of all choreographic choices and dancer performance, including the cohesion of musicality, costume, movement, tone, and energy, etc. Pieces and performances that are especially memorable and/or emotionally striking in some way will receive more points in this category.
- **Total Scores (0-300)** Scores are calculated by the tabulator. The highest possible score is 100 per judge, 300 total. The final score is the average of the three total scores minus deductions, if applicable.
- Please review our Artistic Standards document for more information.
